

To Whom It May Concern,

Imagine you're at work sending a very important email, and your computer crashes. Who do you call? Your company's IT professional right? Imagine you got the flu and had to stay home from work. Wouldn't you call your doctor to get a prescription to help you? What if your car breaks down and needs to be worked on, where do you take it? The mechanic, right? IT professionals, doctors, pharmacists, and mechanical engineers are professionals with careers in the budding STEAM industry.

Here at the Science Academy of Chicago (SAC,) inspiring young learners and nurturing future leaders and innovators is what our STEAM (Science, Technology, Engineering, Art and Math) focused education accomplishes every day. Our curriculum goes beyond the Common Core and introduces our students to foreign language, music education, computer programming, art and so much more. We equip our students with the tools and skills necessary to become leaders in a world of scientific discovery and technological innovation as is essential to meeting the challenges of this century. Our graduates move on to attend selective high schools and universities and continue to excel.

People say that it takes a village to raise a child, and we absolutely agree. Our school would not be successful without the support of our families and communities. As tuition funded school, support from our families, local businesses and communities is essential to not only maintain our high quality education program, but improve upon our offerings every year. We want to be able to provide our students not only the best teachers but also the best learning materials and state of the art technology.

We hope that you will consider supporting our mission to provide a STEAM focused college preparatory education to our youth and to prepare them for the challenges of tomorrow. To support the school, you can purchase tickets to our upcoming fundraising dinner, where we can show you first-hand what STEAM is all about and why we have been named a leader in our field.

If you are unable to attend the dinner on Friday, March 4th, please consider our various sponsorship packages or consider making a charitable donation to our school. Please review the attached information regarding tickets and sponsorship. Thank you so much for your time and consideration. If you have any questions, please email me at fazio@saoc.org or call at (847) 258-5254 ext 165.

Sincerely,

Fundraising Dinner Committee

Danielle Fazio, SAC Events Coordinator
Cynthia Potter, Pre-K 3 Teacher
Zorin Daramjee-Huda, Lower Grade Chair
Muyesser Korkmaz, Turkish Language Teacher
Halime Cavus, Upper Grade Chair
Genesis Grunke-Mikos, 3rd Grade Teacher
Rory Pascas, PTO member
